First Class Products for First Class Yards

Agrigen's Yard Essentials will keep your grazing in top condition and your yard and arena weed-free - without breaking the bank.

Paddock Nutrition

Paddock soil test

Get a detailed understanding of your paddock soil together with a tailored fertiliser recommendation. A cost-effective process to undertake – soil testing allows you to accurately apply the best fertiliser for your needs, rather than overspending on general feed.

RRP
£38.39

Triple-16 16-16-16

This balanced formulation can be particularly useful if you are treating areas slightly deficient in phosphate or potassium as you are also delivering nitrogen which will be needed to promote top growth.

Paddock Seed

Premier Paddock seed

This horse and pony paddock grass seed mixture is suitable for new and existing paddocks. It contains all the seeds needed to maintain a healthy paddock and horse.

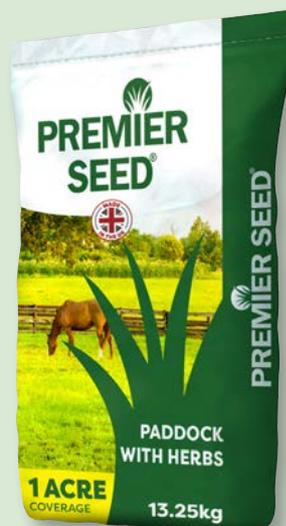

RRP
£57.75
INC. VAT

Premier Paddock seed with herbs

The Premier range of grass seed is exclusive to Agrigem and features a high quality mix specifically formulated for specific areas, whether for seeding new grass or to overseed bare or patchy areas. Particularly suitable for horses prone to laminitis and for those wanting to provide a more diverse diet.

Paddock Weed killers

Grazon Pro

Grazon Pro is a selective weedkiller for the control of perennial broad-leaved weeds such as nettle, docks & thistle in established grassland. This is a strong weedkiller that will not harm grass, making it the market leading product for spot spraying unsightly paddock weeds.

RRP
£66.78
INC. VAT

Thrust

Thrust Selective Weedkiller is a strong selective weed killer for the control of annual and broad-leaved weeds in grassland. Whilst this product is highly effective on weeds such as thistle, dock, plantain, soft rush and buttercups, it is particularly effective on the troublesome weed, ragwort.

RRP
£73.80
INC. VAT

Hurler

Hurler is a selective translocated herbicide for use on grassland and is one of the few products on the market which is safe to use on newly sown grass leys. This product is widely used in mixtures with other herbicides to increase the range of controllable weeds.

RRP
£60.00

Paddock Equipment

Coverall

This disposable coverall is an economic solution to protect from non-hazardous liquids and dusts. It comes with an elasticated hood, cuffs and ankles and has a two way zipper with storm flap.

RRP
£10.20
INC. VAT

Handy Towable 36.5kg Spreader

This Handy towable spreader is ideal for users wanting to apply fertiliser, seed, salt & other granular materials. It will hold 36.5kg of material in its tough polypropylene hopper. It features a steel drawbar with hitch pin connection.

RRP
£118.80
INC. VAT

Knapsack sprayer

The Cooper Pegler CP15 Classic Knapsack Sprayer stands out for its robust and durable design. Its unique diaphragm pump is incredibly reliable and low maintenance, with minimal moving parts exposed to friction.
