

Autumn-gem[®]

FOLIAR FERTILISER

4-2-16 FOLIAR FERTILISER w/w

Autumn gem[®] is a fully water soluble foliar NPK fertiliser ideal for use on grassed areas such as fine turf, lawns, sports pitches & amenity areas.

It contains 4% Nitrogen, 2% Phosphate & 16% Potassium.

We recommend using Autumn gem[®] from August-November when the grass is actively growing. Avoid spraying when grass is stressed due to frost or drought. Where possible, also avoid spraying in bright sunlight as this could cause scorch to the grass.

KNAPSACK SPRAYER RATE

500ml - 1L per 20-40L of water.

BOOM SPRAYER RATE

10-20 Litres per Hectare.
